### Animal ID for 2016-2017

- All 4-H animal project member will be required to enter their animal information in 4-H Online by the stated deadlines.
- If animals are not entered at this time, they will not be eligible for exhibition at the 2017 Adams County Fair.

### Why?

Adams County Fair will be using a new management system for all entries at this year's fair.

This new system works very well with 4-H online, it is called Fair Entry.

Some of the benefits are:

- You will be able to specifically enter your animals in their correct classes.
- You will be able to enter online.
- You can use your 4-H Online login information for the FairEntry system.
- Animal Information will be accessible from year-to-year, so once you enter the information for your animals that are not Market, you will be able to 'activate' them for the next 4-H year.

### How?

Log into your 4-H Online Account

Click the 'animals' tab

Click on the species (ensure you have the correct member selected) and enter the animal information.

All **'Bold'** items are required.
